#Skills

Front-End

Javascript ES6
CSS / SASS
HTML5 + Canvas

Back End

REST / MongoDB
NodeJs / Express
Firebase / Firestore

Source Control

Git (Github)
SCRUM / Agile
Zenhub

FrameWorks

Angular
React
React Native

Libraries

RxJs
NgRx

#Professional Experience

[Idle Australia](#) / Frontend Developer

July 2018 - December 2018 : Perth, Australia

- ↳ Hacked the company's webapp to reveal sensitive user data, disclosed my findings immediately.
- ↳ Built components for the SPA using the Angular framework, SASS and HTML.
- ↳ Implemented NgRx reactive state store to improve the speed of the site by reducing calls to the API.
- ↳ Enhanced UX by implementing front-end sorting and filtering of results for faster searches that are API independent.

[Ünocart](#) / Mobile Developer

July 2018 - September 2018 : Perth, Australia

- ↳ Implemented analytics in app using Segment to track user onboarding and marketing campaign performance.
- ↳ Built HTML email templates for onboarding, marketing campaigns, etc.
- ↳ Improved UI across the app with a overhaul and full redesign of the global app styles using CSS in React Native.
- ↳ Remedied navigation issues to create a consistent and functional UX across IOS and Android devices.

BioHack Academy / Student

2017 : Perth, Australia

- ↳ Built real time graphing and monitoring software in Python that read serial data as input.
- ↳ Interfaced with human body using a EMG circuit I build.
- ↳ Scripted Arduino sketches to log, and timestamp EMG data.
- ↳ Iterated over designs to create a prototype portable EMG for the measure of muscle contractile force.
- ↳ Looked like the biggest nerd in the gym.

Lad and Lass Clothing / Owner + Operator

2012 - 2017

- ↳ Designed apparel sold in stores nationally and online.
 - ↳ Automated fulfillment and supply chain logistics using python scripts.
-
